Detailed Action

1. Claims 1-30 are presented for examination. This office action is in response to the amendment filed on 5/18/06.

Information Disclosure Statement

2. The information disclosure statement (IDS) submitted on 5/18/06 is being considered by the examiner.

3. Applicants are requested to update the status of the related U.S. patent application, accordingly (e.g., U.S. Patent Application Serial No. ####,### filed Sept. 07, 1990, now abandoned; ..., now U.S. Patent #,###,### issued Jan. 01, 1994; or This application is a continuation of Serial Number ####,###, filed on December 01, 1990, now abandoned; ...etc.). Also applicants are requested to include the status of the related U.S. applications or patents in the CROSS-REFERENCE TO RELATED APPLICATIONS section and in any other corresponding area in the specification. If Any.

Restriction

4. Newly submitted claims 1-30 directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: the present claims directed to an invention of access control, (wherein the trace generator is configured to store the exceptional instruction in a different trace cache entry than any non-exceptional instructions, see block 7 bottom in the spec, 2nd embodiment) which

Art Unit: 2185

distinct from and independent of the invention previously claimed, access prevention (to prevent the exceptional instruction from being stored in a same one of the plurality of trace cache entries as any non-exceptional instruction, see block 7 middle, 1st embodiment).

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 1-30 withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Conclusion

1. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
2. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 2185

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

3. When responding to the office action, Applicant is advised to clearly point out the patentable novelty which he or she thinks the claims present in view of the state of the art disclosed by the references cited or the objections made.
